-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This office action is in response to applicant's communication of 5/20/2008.

Currently amended claims 23-24, 26-27, 29, 31, 33-35, 37-38, 41-44 are pending and rejected below.

#### ***Information Disclosure Statement***

The information disclosure statement filed 5/20/2008 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information and is excessively lengthy and contains patents listed that is not in the English language and no translation has been given. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a). Examiner is further encouraged to explain which documents are the most relevant or why they were placed on the IDS.

#### ***Claim Rejections - 35 USC § 102***

Art Unit: 3767

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23-24, 26-27, 29, 31, 33-35, 37-38, 41-44 are rejected under 35 U.S.C. 102(b) as being anticipated by KLETSCHKA (U.S. Patent 4,794,928).

Keletschka discloses an embolic filtering catheter apparatus containing a filtering portion with a filtering member (6), attached to a directional member (19), elongate tubing (area through 4 in one example), and a plurality of restraining wires (29 or 31 for example)

The Kletschka filtering member device is made from blood filtering material and braided/woven biocompatible material which is capable of blocking the passage of an emboli, and is expandable by the expansion of the directional member (see paragraph at column 4-8). The expanded filtering directional device is a truncated conical shape (see figures 17-25), that directs fluid into the filtering member.
